Dear Mr. Findlay:

Re: Permit Transfer Documentation, Ash Grove Cement West, Inc./Southwestern Cement Enterprises, Inc., Leamington Cement Plant, M/023/004, Juab County, Utah

This letter is directed to you pursuant to the recently signed Memorandum of Understanding (MOU) between our respective agencies. On December 22, 1989, we received a written request for a permit transfer of the Leamington Cement Plant and associated mine operations from Mr. Oliver W. Gushee, legal counsel for Ash Grove Cement West, Incorporated (AGCW, Inc.). The transfer will effectively change the ownership of this property from Southwestern Cement Enterprises, Inc. to Ash Grove Cement West, Inc.

After review of the pertinent documents, we have the following comments:

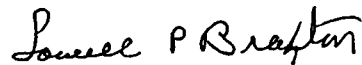

1. Suggested language change under #1(a), of Form MR-TRL, to include: Notice of Intention **and the USFS Plan of Operation (as approved 3/14/80)** to be transferred.
2. The blue line prints (2) as referenced in Appendix "A", under item 3(b), must be made part of the permit transfer application.
3. On page 2 of 8, Form MR-RC, Reclamation Contract, the "Surety Company" section must be completed by the operator. The appropriate "Power of Attorney" certificate from the surety must also be provided as part of the final transfer documentation.
4. All forms must have the appropriate signatures and notarizations completed before they can be accepted by the Division.

5. The permit transfer documents for the other non-USFS mining properties being transferred to AGCW, Inc. (i.e., Nielson and Navajo Sandstone Quarries) must also be provided to the Division. The Division has sent a revised reclamation estimate for the Navajo Sandstone Quarry to AGCW, Inc.'s legal counsel. This should enable the remaining documents to be prepared and forwarded to this office.

Please incorporate these review comments into your review response to AGCM, Inc. Please contact me, or Wayne Hedberg should you have questions or concerns regarding this review. Thank you for your assistance and cooperation in processing this permitting action.

Sincerely,

Lowell P. Braxton  
Associate Director, Mining
